Was the deceased under restraint in the time leading up to the death or the events causing the death?

Under Restraint: Yes, mark which restraint devices were used

Type of restraint

Type of Restraint: Handcuffs

Summary of Incident

Summary of How the Death Occurred: (max. 30,000 characters)

Summary:

On 12-07-2022 at approximately 1920 hours, Officers were dispatched to the 1800 Block of E BUS HWY 190 regarding a reckless driver traveling on the wrong side of the roadway before striking a construction vehicle. Dispatch informed Officers that the caller reported that the subject was screaming and acting strangely. When Officers arrived, they observed Mr. Ibrahim lying on the front floorboard of the vehicle, disoriented, yelling but not forming any sentences. Officers began speaking with Mr. Ibrahim, but his responses were incoherent. They advised him that they would help him get out of the vehicle, and he said OK but then went back into an incoherent rant. They unlocked the vehicle through the open driver's window and assist him by pulling him out from the front passenger door. When they got him out of the vehicle, he was lying on his back in the center median of the roadway. They asked him if he was OK, to which he replied yes, they asked his name, and he

replied with something they could not understand. They asked if he had taken anything, and he began to flail around again. They informed him that they would place him in handcuffs until they could figure out what was happening. He began to scream and flail around more, so they rolled him to his stomach. Mr. Ibrahim lifted his head and struck it onto the concrete, but officers intervened by cupping his head with their hands to prevent him from injuring himself. They gained control of his hands, secured him in handcuffs, and immediately rolled him to his side. When he was turned on his side, Officers noticed fluid on the ground where they believed he had vomited. Officers noticed that he displayed a blank expression on his face, and they began to check his breathing and pulse. He was breathing and had a pulse, but it was weak. Based on his actions and demeanor, they believed that he might be overdosing, and one Officer retrieved Narcan from his patrol car while the other cradled him in a sitting position and monitored his pulse. They lost pulse as the Officer returned with the Narcan. Narcan was administered, and CPR was started immediately after the dose was given. CPR continued for the entire period that the Officers waited for EMS to arrive. A second dose of Narcan was administered, and CPR continued until EMS arrived and took over treatment. The Texas Rangers were contacted because the death occurred while Mr. Ibrahim was detained during the investigation of this call.
